MITI KN	TOPICS
1	Electronic suitcase for paper leak detection using rtc
2	Hotline maintenance robot
3	Automated petrol pump with RFID
4	Automated petrol pump with TX RX keypad
5	Pick and place robot using android & radio frequency
6	RFID toll collection
7	Toxic gas alert
8	Multipower generation
9	Railway track security(power generation)
10	Automated railway bridge
11	Green house monitoring
12	Thermo electric helmet
13	Hydrogen booster
14	Control area network circuit breaker for line man safety
15	CAN controlled vehicle (master slave)
16	Android controlled robot
17	Voice controlled wheel chair
18	Voice controlled home appliances
19	Android controlled notice board
20	Pollution control using RFID & IOT (spanning tree algorithm)
21	Myoelectric/MEMS based robotic hand
22	Energy meter using GSM
23	Ultrafast electronic circuit breaker
24	Automatic grass cutter/android / RF
25	Touch screen based automation
26	Sun tracking solar panel

27	Pc based load control
28	Baby incubator
29	Time operated electrical appliances control
30	Conveyor belt with object counting
31	Speed checker for highways
32	Power optimisation technique for efficient energy
33	Smart bike helmet
34	Automatic lane parking for bus,train,car
35	Automatic drunk driving detection
36	Vehicle theft intimation
37	Underground cable fault detection
38	Collision avoider with speed controller /cars / train
39	Automatic gate control on sensing train
40	Smart street lights on sensing vehicles
41	Footstep power generation
42	Networking of multiple microcontrollers
43	Gesture control mouse
